

# Queens Paideia School

June 28, 2010

Dear Rebecca:

As we wind down our first year at the Queens Paideia School, we want to express our appreciation for your input and guidance in creating engaging activities that truly differentiate to our students' learning styles and interests. Your suggestions for enrichment and remediation were ones that our teachers could successfully implement (and our parents could support) to guide students along learning paths that foster their passions and priorities.

Sincerely,  
Francis Mechner  
Director
